¹ Credit features require setup, identity verification and sufficient credit history by TransUnion and/or Equifax. Credit monitoring features may take several days to activate after enrollment.

⁴ Locking or unlocking your credit file does not affect your credit score and does not stop all companies and agencies from pulling your credit file. The credit lock on your TransUnion file will be unlocked if your subscription is downgraded or canceled.

[†] The LifeLock alert network includes a variety of product features and data sources. Although it is very extensive, our network does not cover all transactions at all businesses, so you might not receive a LifeLock alert in every single case.

^{*} Does not include monitoring of chats or direct messages.

^{**} These features are not enabled upon enrollment. Member must take action to activate this protection.

[†] Home title monitoring feature includes your home, second home, rental home, or other properties where you have an ownership interest.

No one can prevent all identity theft or cybercrime.
